Terms of Service

1. Acceptance of the Terms of Service

The following Terms of Service (the "**Terms**") govern your access to and use of: (a) our proprietary platform that facilitates the issuance and redemption of cryptographic tokens which are referred to as "**Stably Dollars**," (formerly "StableUSD," also known as "**USDS**," or "**USDSB**," collectively "**USDS**"), in exchange for real US dollars (the "**Platform**"); (b) any cryptocurrency wallet made available through the Stably Platform for the storage of property represented in cryptographic token form on a blockchain (the "**Wallet**"); (c) all versions of the Stably Prime solution ("**Stably Prime**") and (d) all other products or services provided by us to you in connection with the foregoing (collectively, the "**Stably Platform**" or "**Platform**"). These

Terms of Service form an agreement between Stably Corporation ("**Stably**," "**Company**," "**Technology Service Provider**," "**us**," "**we**," "**our**"), our regulated trustee partners, including Prime Trust, LLC ("**Prime Trust**," "**Trustees**," "**Regulated Trustee**," and also known as the "**Issuer**," or "**Administrator**" of the convertible virtual currency, USDS), and you. The term "**you**," "**user**," and "**client**" refer to the person or entity accessing or otherwise using the Stably Platform ("**use**" or "**using**" in these Terms of Service will mean any of the foregoing). By using the Platform, or by clicking to accept or agree to the Terms of Service when this option is made available to you, you accept and agree to be bound and abide by these Terms of Service and our Privacy Policy, incorporated herein by reference. If you do not agree to these Terms of Service or the Privacy Policy, do not access or use the Platform or the Stably Platform.

2. Stably Services

2.1 Purchase and Redemption of USDS

USDS TOKENS ARE NOT MONEY, CURRENCY, OR LEGAL TENDER AND SHOULD NOT BE TREATED AS SUCH.

The Stably Platform provides a technology interface to assist Regulated Trustees in the issuances and redemptions of USDS tokens. Every USDS token is fully collateralized by a US Dollar ("USD"). Stably utilizes tokenization smart contracts and escrow accounts managed by Trustees in order to legally create a 1-to-1 parity to the USD via direct redemption of USD held in escrow accounts that are insured by the Federal Deposit Insurance Corporation ("FDIC") or equivalent insurance for the benefit of USDS token holders. At the instruction of the Regulated Trustee, our publicly-audited smart contracts issue USDS tokens when USD is deposited into the escrow accounts and destroy USDS tokens when USD is redeemed/withdrawn from the escrow accounts. This ensures that the number of USDS in circulation and the amount of USD held in escrow by our Trustees are equal. The escrow account holdings are also published periodically and subject to ongoing attestations by third party auditors. Except as outlined under the terms and conditions of the Distribution Awards, Partner Rewards and Affiliate Referral Rewards programs, USDS tokens do not pay interest, dividends or any other type of earnings. All interest and earnings generated by the escrow accounts are owned by the Company and its Trustees.

To purchase USDS tokens, a client must first open an account on the Stably Platform. Once they are logged in to the Platform, the client must submit their personal and financial information, including bank account information and a valid Ethereum ERC-20 wallet address for receiving the USDS tokens to be purchased. The client can then create a USDS token issuance/purchase request. We then forward this information and the request to our Trustee. The Trustee then screens the client's information in

accordance with their internal anti-money laundering procedures and “know your customer” compliance program (“AML/KYC”). Upon approval of the request, the Trustee will notify us, and we will notify the client to initiate a USD wire or ACH deposit to the escrow accounts held by our Trustee. Upon receipt of funds, the Trustee will authorize our smart contract to issue USDS tokens and send them to the client’s wallet address.

To redeem USDS tokens, a client must also have an existing account that is AML/KYC-verified on our Platform. The client can then create a redemption request on our Platform. We will then forward the request to our Trustee. Upon approval of the request, we will notify the client to send their USDS tokens to a deposit address to be destroyed. Upon receipt of tokens, we will notify our Trustee to initiate the USD wire or ACH transfer to our client.

Possession of USDS tokens does not guarantee redemption or exchange of the tokens for real currency by the Company or its Trustees. The Company and Trustee reserve the right to refuse issuance or redemption of USDS tokens for any reason including, without limitation: if any act, conduct, transaction, omission, or misrepresentation, of the party requesting the issuance or redemption, violates, attempts to violate, causes, aids, or abets the violation of any applicable laws, statutes, ordinances, or regulations; is suspected or believed to have blocked property, frozen assets, or economic resources, or the proceeds of any crime, terrorist financing, or corruption related to any person or government official under any applicable laws; exposes the Company or Trustee to sanctions, restrictions, penalties, or reputational harm. The Company and Trustee also reserve the right to refuse to issue or redeem USDS upon receipt of any subpoena, order, or request from any government, government official, or law enforcement authority of competent jurisdiction.
